

## An overview of World War II

Germany invaded \_\_\_\_\_ in 1939. So, France and \_\_\_\_\_ declared war on Germany. This did not stop Germany. She proceeded to invade the rest of \_\_\_\_\_. Soon Germany also tried to invade \_\_\_\_\_, in what was known as the Battle of \_\_\_\_\_.

Next, the USA was dragged into the war when Japan attacked the US Navy at \_\_\_\_\_. Next the Japanese attacked the US Navy at \_\_\_\_\_.  
(Germany was supported by \_\_\_\_\_ and \_\_\_\_\_.)

In the meantime, Germany fought against Russia in the Battle of \_\_\_\_\_. The Russian fought hard and eventually drove the Germans out of Russia.

In Europe, the Allies were able to defeat \_\_\_\_\_, but were still struggling to defeat \_\_\_\_\_. So, they planned a major attack in France by invading \_\_\_\_\_. This was successful because it forced the Germans to retreat. The Germans launched one more attack on the Allies known as the Battle of the \_\_\_\_\_. However, they failed and were forced to continue their retreat back to Germany and eventually surrendered.

Finally, after two atomic bombs were dropped on Japanese cities, \_\_\_\_\_ also surrendered. And so, WWII came to an end in 1945.
